

You learned enough to get into UVA, now learn about how to...

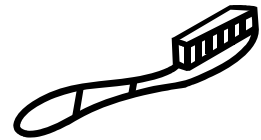

# Save Water at UVA!

- Turn the faucet COMPLETELY OFF after using it.

- Turn off the water when you brush your teeth, shave, or wash your hands.

**\*this saves 4 gallons PER MINUTE!\***

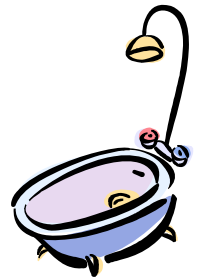

- Don't flush the toilet unnecessarily. Dispose of tissues, insects, etc. in the trash.

- Take five minutes off your shower time.

**\*This can save 18,250 gallons per year\***

Time yourself: you'll be surprised at how long you're in the shower!

- **REPORT LEAKS!!!**

Keep an eye on the shower, toilet, and sink for leaks.

Report them as quickly as possible here:

<http://www.virginia.edu/housing/maintenance.php>

**\*Leaks waste 20-100 gallons of water PER DAY\***
